## PRESS RELEASE

### AliGraphics Celebrates 25 Year Anniversary

**White Plains, NY... July 24, 2017**

AliGraphics (White Plains, NY), a total print communications resource for unions, businesses, nonprofits and government agencies, has reached a corporate milestone of 25 years in business successfully growing and developing. The Company, a member of the Amalgamated Family of Companies, was founded in 1982 by its current President John Dubil in response to the growing needs of Amalgamated Life Insurance Company, the flagship company of the Amalgamated Family of Companies. Then, AliGraphics had just four employees, two small presses, one camera and a plate maker. Its services included just two-color, two-sided print jobs and business cards. Today, as it celebrates its 25<sup>th</sup> anniversary, the Company employs 17 experienced printing professionals, applying an extensive line of leading-edge technologies to provide a full range of high quality graphics production, printing, bindery, finishing, mailing, and fulfillment services.

According to Dubil, "We were born out of a need for quality print services and have grown by being responsive to the market's increased demand for broader services. While we started out handling the printing requirements of the Amalgamated organization, we subsequently grew through word of mouth among its vendors and customers who also sought a reliable resource for their printing needs. Where we once had a customer base almost solely located in Manhattan, we now serve a national roster of customers across the labor, corporate, public and private sectors."

AliGraphics can cite a proven track record providing a full suite of printed materials from direct mailers, brochures, annual reports, flyers, stationery, business card, forms, signage and banners, to ID cards, member benefit booklets, ballots, summary plan descriptions, political campaign materials and promotional products. Its competitive pricing, on-time and to-specification delivery has contributed to what is now a strong reputation as a 'go-to' resource for printed communications and related services. Over the years, AliGraphics has made considerable investments to keep up with the latest technologies and the necessary employee training to assure its ability to continually meet its customers' changing needs.

"When I walk through our facility now, I see an equipment line-up that includes full-color offset printing equipment from sheet-fed presses to two-color presses, leading brand name production systems for digital printing controlled by the latest generation of full imposition software, color-calibration and variable data capabilities, along with wide format printers. Then there's our bindery and finishing equipment, mail and fulfillment systems. All of it makes me realize how

far we've come in two and a half decades," continued Dubil. "Equipment aside, however, it is our team that really distinguishes us and should be credited with our success. Our team members are among the most skilled, trained and qualified for even the most complex projects. They, along with our hands-on, consultative approach whereby we effectively manage every aspect of a job, have enabled us to assure the highest quality and total customer satisfaction."

AliGraphics is an active member of the printing industry and a member of the Amalgamated Lithographers Union Local One and the Allied Printing Trades Council of New York, New Jersey and Connecticut.
